Traditional Chinese medicine and health products have experienced growing popularity in recent years, especially with the modernized Chinese remedies, which could be translated into new business opportunities in the industry. Hong Kong, with its long tradition in practicing Chinese medicine, is spearheading the drive for research and development, manufacturing, quality certification and export marketing of modernized Chinese medicine.

The Hong Kong Trade Development Council (HKTDC) and the Modernized Chinese Medicine International Association Limited (MCMIA) realized that it is crucial to provide the public and the market with clear and comprehensive information in order to support the rising demand. Both HKTDC and MCMIA have joint efforts in organizing the International Conference & Exhibition of the Modernization of Chinese Medicine & Health Products (ICMCM) for two consecutive years.

In 2003, ICMCM has successfully attracted 200,000 visitors from 26 countries. In 2004, ICMCM 2004 showcased the best-illustrated Chinese medicine in the region with 172 exhibitors and attracted 2,700 buyers (an increase of 50% compared to ICMCM 2003) to the event. The well-organized exhibition served as an excellence platform for the business sector to partner with the industry to tap the enormous opportunities ahead. Meanwhile, ICMCM 2004 has recorded 232,000 visitors from 28 countries.

The third consecutive ICMCM will be held together with the Food Expo in Hong Kong in 2005, creating synergies for traders to explore the business opportunity in Chinese medicine, health products and food.

In 2005, ICMCM will feature the following major exhibit categories:

- Chinese Medicine
- Health Supplement
- Healthcare & Therapy
- Raw Material, Equipment & Related Services
- Research & Development
- Trade Association

On 11-12 Aug, the event will kick off with a 2-day conference exclusive for industry players, offering industrial insights, latest trends and advancement by invited speakers from various aspects of the industry. The event will be accessible by public visitors on 13-15 Aug. In addition, exhibitors will be given the opportunity to showcase their products at the Business Exchange Forum and the Public Forum.
