

Johnson & Johnson Now Accepting Global Applications for 2020 Women in STEM₂D Scholars Award

Annual award honors female scholars in the disciplines of Science, Technology, Engineering, Math, Manufacturing and Design with \$150,000 grant and 3 years of mentorship

Deadline for applications is Oct. 3, 2019

Johnson & Johnson announced on 22nd August 2019 its global call for nominations for its 2020 Women in STEM₂D (WiSTEM₂D) Scholars Award. Each year, these STEM₂D grants are given to assistant or associate academic professors worldwide, in the disciplines of Science, Technology, Engineering, Math, Manufacturing and Design. Each recipient will receive \$150,000 — \$50,00 each year for three years — and three years of mentorship from leaders at Johnson & Johnson.

The deadline for applications is Oct. 3, 2019 at 9 a.m. HST, and guidelines and additional details are available here: <https://www.jnj.com/wistem2d-university-scholars>.

Launched in June 2017, the Johnson & Johnson WiSTEM₂D Scholars Award aspires to fuel development of female STEM₂D leaders, and inspire career paths in STEM₂D, by supporting the research of the awarded women in their respective STEM₂D fields.

An independent External Advisory Board will select the 2020 winners, each of whom will represent one of the STEM₂D disciplines. Last year, more than 400 highly qualified applicants from across the world applied for the award.

“Johnson & Johnson is supporting and establishing the next generation of female leaders and global innovators in order to increase the participation of women in STEM₂D fields worldwide,” said Cat Oyler, Vice President, Global Public Health, Tuberculosis, Johnson & Johnson and WiSTEM₂D University Sponsor. “This award seeks to showcase the talents of highly-trained female researchers and academic professors, providing support at a pivotal moment in their academic careers, so they can continue to lead STEM₂D breakthroughs in the future with limitless opportunities to change the trajectory of health for humanity.”

In order to apply for the 2020 WiSTEM₂D Scholars Award, the applicant must:

- • Submit a university or school department head letter of recommendation (*Each University / Institution can support one applicant per STEM₂D discipline; 6 applicants in total.*)
- • Write 1,000 words detailing the proposed area of research. One additional page can be added for images, or references.
- • Submit her resume (three pages, font size 11), including a list of publications, presentations, abstracts, current financial support already obtained, other folio work and two references.
- • Submit a brief outline of the budget for proposed research.
