- Discover biotechnology partnering opportunities, explore the innovative business collaboration model
- Learn from the best cross-border partnering deals, overcome the alliance management challenges
- Grasp global biotechnology development trend, set an international business strategy
- Gather together global leading bio pharma elites, directly meet your potential partners by 1-2-1

Event Background

Bio Partnering APAC 2018 is the most powerful way to make big deals in bio pharma industry in Asia Pacific Region. Against the background of increasing government policy support, exciting biotechnology breakthroughs and growing venture capital investment, themed on “**Open Innovation, Strategic Cooperation**”, Bio Partnering APAC 2018 will continuously provide you with the **latest knowledge, tools and expertise** to set your own global business strategy.

This two-day event will divide into **One-day plenary conference** and **Two parallel forums**, separately focusing on the latest pharma policy reform and innovation, the Cross-border cooperation hotspots and strategy, and the capital investment trend and technics. The **15+ insightful panel discussions** will help you to learn global partnering trends and how to make deals in global pharma industry. The **180-min biotech showcase** will make it possible for you to find potential projects and partners with less time. And the self-arranged schedule during the event will enable you to have more flexible time for **one-on-one meetings**.

Event Highlights

Networking & Partnering opportunities you CAN NOT MISS!

1-2-1 Meeting

Partnering, facilitated by our leading online partnering system is the most efficient way to find and meet the right people for your company's collaborative aims and make deals in a hand shake. In addition to the topic-driven conference, we bring extra value for business development executives from pharma industry. Each meeting can be pre-arranged through the system and you will find what a ROI the event can bring to your company.

Biotech Showcase

The 180-min Biotech Showcase, designated to carefully select the cutting-edge biotech companies who have made extraordinary progress in certain areas and seek for external

collaboration, to exhibit the most exciting and valuable projects. This session will be the best opportunity for big pharma and VCs to choose the promising project as well as tap investment potential, also the greatest platform for biotechs to expose their strengths and find right partners.

Exhibition

An exhibition hall with 20 standard booths will be arranged in the tea break area. It will gather the most professional service and solution providers specialized in biotech partnering. Won't you miss the chance to expose your competitiveness in front of global pharma players? So do not hesitate to customize your exhibition booth for potential cooperation!

Award Ceremony

Day one afternoon will witness the annual Award Ceremony of Bio Partnering APAC 2018. Guided by the principles of free will, equality and fairness, the organizing committee will examine and verify all submitted application materials from candidate companies. The honors will run to outstanding companies for the contribution to global bio-pharmaceutical industry!
